Copper Sculpture

Stained glass artist and gallery co-owner, Camille Morgan, developed her own ideas about turning a simple craft into highly collectible art.

Moving from stained glass into more creative copper sculpture collectibles, 3-D glass and copper wall art, she has brought great enjoyment to many with her unique art.

From small garden bugs and animals to more sculptural larger works, Camille has taken copper to a different level. Often humorous and never dull, she puts a little of her own personality into every work.
